

Combined Exposures To Hydrogen Cyanide And Carbon Monoxide In Army Operations: Final Report

Appendix A

Biographical Information on the Committee on Combined Exposures to Hydrogen Cyanide and Carbon Monoxide in Army Operations

William E. Halperin is professor and chair of the Department of Preventive Medicine and Community Health at the UMDNJ–New Jersey Medical School. He received his M.D., M.P.H., and Dr.P.H. from Harvard University. Previously, Dr. Halperin was deputy director of the National Institute for Occupational Safety and Health. His research interests are in occupational medicine, occupational epidemiology, and public health surveillance. Dr. Halperin was a member of the National Research Council (NRC) Committee on Risk Assessment Methodology and served as a member of the Committee on Toxicology's Subcommittee on Spiccerath Water Exposure Guidelines; Subcommittee on Ethylene Oxide; and Subcommittee on Jet Fuels, Panel on Emergency Exposure Guidance Levels. He also served as a member of the Institute of Medicine's Committee to Survey the Health Effects of Mustard Gas and Lewisite. Dr. Halperin is certified by the American Board of Preventive Medicine and the American Board of Occupational Medicine. He is currently the chair of the NRC Committee on Toxicology.

Gary P. Carlson is professor of toxicology and former associate head of the School of Health Sciences at Purdue University. He received his Ph.D. in pharmacology from the University of Chicago. He is currently serving on the NRC Committee on Toxicology. Previously, he was chair of the NRC Committee on Toxicology's Subcommittee on Toxicologic Assessment of Low-Level Exposures to Chemical Warfare Agents. Dr. Carlson has served as secretary of the Society of Toxicology, chair of the society's Education Committee, and chair of its Board on Publications. He has served on the U.S. Environmental Protection Agency (EPA) Joint Advisory Board–Science Advisory Panel Committees on (1) Cholinesterase Inhibition and (2) Cholinesterase and Aldicarb and on the EPA Science Advisory Board's Panel on Drinking Water. Dr. Carlson has also served on the Board of Scientific Counselors of the National Toxicology Program (NTP) and as chair of the NTP Technical Reports Review Committee. He is an associate editor of the *Journal of Toxicology and Environmental Health* and serves on the editorial board of the *Journal of Toxicology*.

Ronald F. Coburn is professor of physiology at the University of Pennsylvania. He received his M.D. from Northwestern University in 1957. He has done extensive research on carbon monoxide. He was the chairman of the Panel on Carbon Monoxide from 1972 to 1975. He received the National Institutes of Health Merit Award in 1997. He previously served on the NRC Committee on Medical and Biological Effects of Air Pollutants (1972-1976). Dr. Coburn has served on many editorial boards including *Physiological Review*, *American Journal of Physiology*, and *Journal of Applied Physiology*.
